

Model Innovations

Model Innovations are proud to represent Kcolor airbrush paints as the official UK distributor.

As some will have seen us at some shows tail end of 2017, we will be attending quite a few shows in the southern area over the coming months and aim to expand this going forward.

Our policy is and will remain to demo the product at every show we attend, to show how Kcolor products are extremely versatile and easy to use and what great results can be achieved with a truly amazing NON TOXIC WATER BASED paint range.

As time goes on new products from the range will be stocked as demand requires, never the less all the range will of course be available to order. This way we will keep our stocks very fresh, thus assuring you of the best quality everytime you purchase.

Please keep an eye on the website which is being updated and all the products will be shown along with tips and ideas on how to get the best results.

We hope you will add Kcolor to your range of products to good model GREAT! and remember to ask for the Kcolor range at your local model shop.

Thanks

Steve & Kev
