

METALLIC BASE

Water base

Metallic Base \

Chrome and metallic paint requires a special glossy base coat. Kcolors black and white base family are perfect for any project. Easy to apply and self levelling to give you a super mirror finish for that metallic effect.

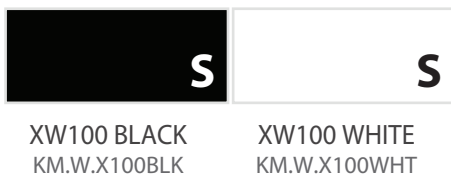

PRICE (Inc vat): £6.99

Stocked Line (S)

WATER FINISH:

Scratch resistant. Auto levelling technology. Water base non toxic paint. Apply first dry coat and two wet coats every five minutes. Dry time for chrome and metallic application 12 hours. Clean with Kcleaner WB KM.W.WBCLN

CHROME APPLICATION SEQUENCE

Distance between surface and your airbrush depend from the size of your piece. For large surface as aircraft wings we suggest 12 cm and **very wet coat** ; for smaller surface we suggest 8 cm and **wet coat** . Pressure 2/2,5 bar.

6	Protect with XW100 Clear (same application of point 2 - 3 - 4)
