

MOBILE SUIT

Technical data sheet

BASIC RULES

Suggest pressure 1.5 / 2.5 bar, suggest airbrush 0.3 / 0.35 / 0.4, number of layers depending on the final result you glad.
Make your tests before final application.

APPLICATION SEQUENCE FOR QUANTUM CLASSIC

4	Clean these colors with Kcleaner WB
3	Protect only with a KColors Clear Coat you like
2	Apply just medium dry coat until you like the final tone
1	Apply all colors over white base (your base could be a color or primer)
	Model surface

APPLICATION SEQUENCE FOR QUANTUM HIGH

4	Clean these colors with Kcleaner WB
3	Protect only with a KColors Clear Coat you like
2	Apply just medium dry coat until you like the final tone
1	Apply all colors over black base (your base could be a color or primer)
	Model surface

N.B. All quantum paints can be applied over many other colors. We suggest to do some tests to have new special effects.
Application over white base is possible just for some quantum to have brighter tones.
