

POLISH ING COMPOUNDS

Water base

Polish WB

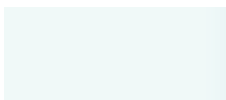

All Stocked

Apply polishes with a soft non abrasive pad or cloth using a circular motion until the desired finish is achieved.
At the end of each stage thoroughly clean the surface and use a clean pad at each stage. Start with cut 1 and finish with mirror wax as required.

CUT COMPOUND 1

Cut compound 1 is the most abrasive and you can use to start your polishing process. We suggest to use it when you have some foggy clearcoat parts.

CUT COMPOUND 1
KM.W.PLS.1

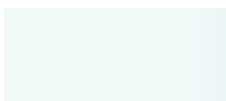

PRICE (Inc vat): £5.49

CUTTING POWER

CUT COMPOUND 2

Cut compound 2 is less aggressive than N1 and we use it to increase the mirror effect of our clearcoat. This is good to make brilliant all old surface.

CUT COMPOUND 2
KM.W.PLS.2

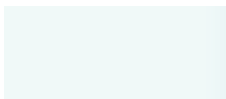

PRICE (Inc vat): £5.49

CUTTING POWER

CUT POLISH 3

From this point you work with Cut polish to have the mirror surface and remove the foggy effect that you could have after Compound 1 and 2. This represent your final step over all colors that are not dark. If you have a dark tone as black or dark red or metallics or pearls please don't stop at N3 but at last apply the number 4 mirror wax.

CUT POLISH 3
KM.W.PLS.3

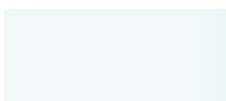

PRICE (Inc vat): £5.49

CUTTING POWER

FINAL GLOSSIFIER

We suggest to use this product for dark colors on cars and bikes. This product is study to give the most mirror effect to the black glossy or dark metallic and pearls tone!

MIRROR WAX 4
KM.W.PLS.4

PRICE (Inc vat): £5.49

MIRROR POWER
