

THINNER

Water base

Kcolors Water Thinner

Kcolors reducer (water base thinner) and laquer base thinners are fundamental in the use of kcolors paint products. Using reducer/thinners enable you to achieve perfect results in all conditions. Special additives keep the structure of your paint unchanged as it becomes thinner. Our thinners are the most delicate on the market and very safe for your airbrush.

PRICE (Inc vat): £4.99

All Stocked
